**PROJECT NAME:**  
Logo Design for XYZ Startup

Details: Somewhere in Canada

**Ps** **Ai** **SVG** **JS**

**Objective:**

XYZ Startup, a new business in the technology industry, approached me to create a logo that reflected their innovative and modern brand identity.

**Solution:**

After conducting a thorough brand analysis and getting input from the client, I created a logo design that combined a clean, minimalist font with a graphic element that represented the company's focus on technology and innovation. The color scheme was selected to reflect the brand's values of trust, professionalism, and creativity.

## So... I'm a Designer?

Hey there! Thanks for checking out my about page. If you're here, it's probably because you want to know a little more about me than what's on my resume.

So, let me tell you something interesting...

I have a secret talent for making funny faces. In fact, I've been known to entertain my coworkers with my ridiculous facial expressions during long meetings. But don't worry, I promise to keep it professional during our collaboration.

Aside from my silly side, I take my work seriously and I'm passionate about creating designs that are not only aesthetically pleasing but also effective in delivering the message. With over a decade of experience in graphic design, I've had the opportunity to work on various projects, from print media to events and production.

So, if you're looking for a Graphic Designer who can deliver high-quality designs, meet tight deadlines, and make you laugh, then look no further!

Let's work together and create something amazing!

## I would ❤️ to hear from you!

Thanks for checking out my portfolio! If you're interested in working together or just want to say hi, fill out the form below and let's get in touch. Just a heads up though, I'm a hugger, but since we're living in the age of social distancing, let's keep a safe distance for now. But don't worry, we can still create some amazing designs together, even if it's from a distance. Can't wait to hear from you!
